

A Program by Families First

Access & Visitation

Parenting Time is a 90-day program that includes both educational seminars and case management services to assist custodial and non-custodial parents to work together in the best interest of their children. The ultimate goal of Parenting Time is to increase parents' access to and visitation with their children.

What does Parenting Time provide?

Mediation Support
a meeting with both parents to develop a Parenting Plan and visitation schedule.

Visitation
supervised, monitored, or neutral exchange visits are coordinated by the case management staff.

Legitimation
services to help biological fathers in Georgia legally establish their parental rights so they can be recognized as the child's legal father and pursue custody or visitation.

Individual Sessions
one-on-one support to help parents understand their parental rights and gather the documentation needed for legitimation or visitation.

Group Education Classes
offer guided learning opportunities that educate parents on their parental rights and the steps required for legitimation or visitation.

 For parents who do not have an active child support case with the Division of Child Support Services, we offer the 90-day PAVE program at an hourly rate.

Did You Know?

In Georgia, **legitimation** is a legal action that allows a biological father to establish his legal rights to his child when the child was born out of wedlock.

Other than marrying the mother of the child, legitimation is the only way that the father can be recognized as the legal father and can therefore petition for custody and/or visitation with his child.
